

COMPANY OVERVIEW

Mt. Machinery LLC delivers comprehensive hydraulic and mechanical services for both marine and land-based applications. The company excels in the engineering, distribution, manufacturing, and overhauling of large-scale hydraulic systems, as well as the inspection, maintenance, and troubleshooting of hydraulic and mechanical components. In addition, Mt. Machinery LLC offers custom machining, line boring, and precision welding, complemented by certified and calibrated load testing to ensure equipment performance. With capabilities ranging from hydraulic systems—encompassing pumps, motors, brakes, cylinders, directional control, and valving—to specialized services like crane overhauls, lathe and mill operations, hydraulic hoses, davits, wrenches, gear boxes, anchor windlass warping capstans, and high-pressure hydraulic units, the company is uniquely positioned to deliver precision, reliability, and long-term operational excellence for government contracting projects.

CORE COMPETENCIES

- Hydraulic Systems & Components: Pumps, Motors, Brakes, Cylinders, Directional Control, & Valving
- Crane Over Hauls
- Lathe, Mill, & Line Boring
- Hydraulic Hoses
- Davits
- Wrenches and Gear Boxes
- Anchor Windlass Warping Capstans
- High Presser Hydraulic Units

DIFFERENTIATORS

Mt. Machinery LLC sets itself apart as a one-stop shop for all marine hydraulic and engineering needs, eliminating the necessity for multiple subcontractors. With on-site machining, welding, and line boring capabilities, the company ensures that every piece of overhauled equipment is rigorously load-tested and certified using calibrated tools. Their utilization of the Critical Path Method (CPM) keeps projects on schedule and within budget, while over 20 years of hands-on experience in large-scale hydraulic and mechanical applications underscores their practical expertise. As a family-owned and operated business, Mt. Machinery LLC combines tangible operational strengths with a personalized, dedicated approach, making it a trusted partner in government contracting.
